

## **Granite City Flight Lines 12/16/2010**

Please Pardon this Newsletter but my Computer is done and I am using my wife's lap top to send out this brief note.

**Next Meeting:** 12/20/2010 7:00 PM St. Cloud Aero Club Hanger. Bring chairs, treats to share, and we will have a discussion on surviving an off airport landing in Winter Weather. Even though the airplane may be intact it will not necessarily protect you in freezing weather. I will bring some items to lead the discussion.

Mark Priglmeier has sent out information on materials added to the Veryl Fenalson Memorial Library at LXL, Little Falls.

Update 12/16/2010: All items below have been received, labeled and delivered to KLXL.

### **Books:**

AC43.13

FAA Handbook of Aeronautical Knowledge

FAA Airplane Flying Handbook

Gleim 2011 Private Pilot Knowledge Test

Gleim 2011 Sport Pilot Knowledge Test

Gleim 2011 Instrument Pilot Knowledge Test

Gleim 2011 Private Pilot Handbook

### **Tools/Supplies:**

Brake Lining Tool w/rivits

Brake Bleeder w/Cleveland and Universal Adapter and 5606 oil

Oil Filter Cutter

Assorted Rivets' Prigs

From GA News today. Interesting: Earhart mystery solved?

Posted by [Janice Wood](#) · December 15, 2010

**A tiny sliver of bone found on a remote Pacific atoll may finally solve the riddle of the disappearance of Amelia Earhart, according to a story in [The Telegraph](#). Researchers from The International Group for Historic Aircraft Recovery (TIGHAR) found the bone at the site of a castaway's encampment on the uninhabited island of Nikumaroro, along with the remains of a 1930s woman's compact – complete with residue of the makeup – a small bottle made in New Jersey in 1933 with the remnants of what appears to be hand lotion, a zip made in Pennsylvania in the mid-1930s and of a design that was never exported, and a broken pocket knife of the same brand that was listed in an inventory of Earhart's aircraft.**

**Hopefully by January I will have my regular computer operational! Merry Christmas and Happy New Year**
